## High Acid Emulsion Bowl Cleaner

### DESCRIPTION

A maximum performance, high acid bowl cleaner designed to remove even the toughest stains caused by rust, lime, calcium and other hard water deposits. Also removes organic soils. A combination of hydrochloric acid, opacifiers, surfactants and water conditioners for use in toilet bowls and urinal fixtures.

### PRODUCT FEATURES / BENEFITS

- Maximum strength formulation / Saves labor and product costs
- Removes even the toughest hard water stains / Ultimate cleaning for fixtures
- Cleans and deodorizes in one step / Makes restroom more pleasant for workers & guest
- Multi-purpose / Cleans, de-scales & deodorizes in one step
- No rinsing required / Saves labor dollars

### DIRECTIONS FOR USE

Concentrated to clean, de-scale and deodorize toilet bowls and urinals quickly and thoroughly with minimum effort.

To Clean and Deodorize Toilet Bowls:

Remove water from bowl with swab by forcing water over the trap. Squeeze water from swab against bowl. Hold bottle over bowl and saturate swab with bowl cleaner. Swab bowl thoroughly, especially under the rim at water outlet, taking care to clean. Flush toilet and rinse swab. To deodorize after cleaning and flushing bowl, pour 2 to 4 oz. cleaner into water still in bowl. Swab entire bowl, seat cover, rinse well, then flush.

To Clean and Deodorize Urinals:

Hold swab over urinal and saturate swab with bowl cleaner. Swab all surfaces of urinal including water outlets at top and all grooves. Remove screen and pour 3 to 5 ounces of cleaner in and around drain pipe. Let stand for approximately 3 to 4 minutes. Swab drain well. Replace screen. Flush and rinse mop.

### SPECIFICATIONS

Color .....	Milky white	Specific Gravity .....	1.13
Odor .....	Pungent	Solubility in Water .....	Excellent
Type .....	Acid	Flash Point .....	None
pH .....	Less than 1	Stability .....	1 year minimum in original unopened container

### SAFETY INFORMATION

DANGER - KEEP OUT OF REACH OF CHILDREN. POISON: Contains Hydrochloric Acid. Corrosive: May be fatal if swallowed. Do not breath vapor or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing.

Internal: If swallowed, call a physician immediately. Drink a teaspoon or more of magnesia, chalk, or small pieces of soap, softened with water in milk or raw egg whites.

External: Eyes contact - Wash with water for 15 minutes. Get prompt medical attention.

Skin contact - Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

CAUTION: Do not use on sinks, bathtubs, porcelain or any surface other than vitreous ware. If used on any surface, it is done entirely at users risk.

For sale to, use and storage by Service Personnel only.
