

# TECHNICAL DATA SHEET

**Product Name:** Misty Industrial Cleaning Solvent

**Item Number:** B00365

**Description:** This highly concentrated solvent is designed to remove dirt, grease, oil, and grime from metallic and many non-metallic surfaces without the use of ozone depleters. Cleaning is quick and simple without the danger of injury to working metal parts. This solvent is ideally suited for use on electric motors (even while running), electronic equipment, ignition systems, typewriters, machine parts, generators, power tools, etc. It is nonflammable and nonconductive up to 29,000 volts so it will not short motors, generators, other live electrical equipment, or increase fire hazard. It easily removes grease and tar, adhesive marks, crayon, lipstick, chewing gum, ink, and fresh paint. It is excellent for removing these spots from upholstery, fabric, rugs, clothing, painted surfaces, metals, and other surfaces. Prolonged contact with aluminum may cause discoloration. As with most chlorinated solvent based products, this formula will affect certain plastics and rubbers. Always test in an inconspicuous area to be certain of product compatibility.

**Directions:** This ready-to-use product should always be used full strength as per label directions. Always remove cap/bung slowly to allow expanding vapor to escape. To clean and degrease equipment, machinery, or component parts, spray or wipe onto areas to be treated. It may also be used as an immersion solvent in tanks and parts washers. Allow solvent to remain in contact for thirty seconds to one minute and then wipe or air dry with a blower. Repeat as necessary to achieve desired results. Extra heavy deposits may require brushing. Check to be sure bristles are compatible with the solvent before using. Be sure to keep container closed to prevent evaporation. NOTE: This product is nonflammable and nonconductive and therefore can be used while equipment is operating. IMPORTANT: This product will affect certain plastics and rubbers. Always test in an inconspicuous area to check product for compatibility.

**WARNING:** Vapor harmful. Contains Perchloroethylene and Trichloroethylene. Use with adequate ventilation to keep exposure levels below the 25 parts per million O.S.H.A. permissible exposure limit (PEL) during an eight hour period (time weighted average). Consult the product material safety data sheet for additional information regarding exposure concerns. Avoid inhalation of spray mist or vapors. If overcome by fumes, remove victim to fresh air. Resuscitate if necessary. Get medical attention. Avoid contact with eyes and skin. In case of eye contact, flush immediately with plenty of water and continue for 15 minutes. If discomfort persists, see a physician. Contains Perchloroethylene and Trichloroethylene which are known to the state of California to cause cancer. KEEP OUT OF REACH OF CHILDREN.

**Container Disposal:** Do not contaminate ground and surface waters or sewers with waste of this product. Dispose of container and waste in accordance with local, state and federal regulations.

**Spill Or Leakage Procedures:** Contain spill. Do not contaminate any sewer, ground or surface waters. Soak up spill in inert absorbent material & place in properly labeled non-leaking containers for proper disposal.

**Product Specifications:**

USDA Category:	N/A	Classification:	Solvent Degreaser/Cleaner
General Appearance:	Clear	Color:	Colorless
Odor:	Chlorinated Solvent	pH:	N/A
Flash Point:	None		

**CAS NUMBERS:** Perchloroethylene 127-18-4; Trichloroethylene 79-01-6.

**HMIS RATING:** Health-2; Flammability-0; Reactivity-0; Personal Protection-B-G.
