## Odor Eliminator/ Neutral Disinfectant Cleaner

### DESCRIPTION

A pleasantly scented disinfectant cleaner that is effective against a wide variety of gram positive and gram negative bacteria. This quaternary ammonium chloride disinfectant cleaner utilizes a synthetic detergent system in neutral pH to assure safe cleaning and disinfecting. Contains our unique Astra™ fragrance.

### PRODUCT FEATURES / BENEFITS

- Eliminates malodors and leaves room with a fresh scent
- Provides efficacy against a broad spectrum of bacteria
- One-Step cleaning and disinfection

### DIRECTIONS FOR USE

FOR GENERAL DISINFECTION of hard, non-porous inanimate surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel and finished wood surfaces) on walls, floors, appliances and furnishings, in industrial and commercial offices, restrooms and work areas. Before disinfecting, preclean surfaces as directed above. Prepare 5 ounces per gallon of water and thoroughly wet the surfaces to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean damp cloth.

CLEANING AND DEODORIZING: Whenever practical, flush away gross soils with water. For cleaning and deodorizing, use 5

to 8 ounces per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning remove suspended soils with a clear water rinse, vacuum pick up, or wipe with a clean mop, sponge, squeegee or cloth.

FOR CLEANING AND DEODORIZING OF GARBAGE CANS, GARBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES AND OTHER GARBAGE HANDLING EQUIPMENT: It is especially important to preclean, in order for the disinfectant to perform properly. Apply a wetting solution of ounces per gallon of water.

FOR CLEANING OF WALLS, FLOORS, AND INDUSTRIAL WORK AREAS: Use 5 to 8 ounces per gallon of water.
